PROFESSIONAL SUMMARY

I am a full-stack web developer and AI enthusiast, currently studying AI and Machine Learning at JIS College of Engineering. With experience in frontend development, JavaScript, and backend technologies, I have contributed to several projects. I also mentor aspiring developers through the GirlScript Summer of Code and aim to become a career consultant, helping people align their strengths and interests with market demands.

EDUCATION

Bachelor of Technology in Computer Science and Engineering (AI/ML)

JIS College of Engineering, Kalyani, West Bengal

Expected Graduation: 2027

ICSE and ISC

St. Augustine's Day School, Barrackpore, West Bengal

ICSE: 2021

ISC: 2023

KEY SKILLS

- **Programming & Technical Skills:** HTML, CSS, JavaScript, React JS, Bootstarp, Tailwind CSS, Node JS, Express JS, MongoDB, MySQL
- **Tools & Platforms:** Notion, Git/GitHub, VS Code, Figma, Canva, Supabase

WORK EXPERIENCE

- **Mentor and Contributor | GirlScript Summer of Code**
  May 2024 – November 2024
  - Actively contributed to multiple open-source projects.
  - Mentored contributors under a designated project.
- **Full Stack Developer | Digidenone (Remote)**
  Aug 2024 – Present
  - I was responsible for designing and developing both the front-end and back-end components of the platform.

SELECTED PROJECTS

- **FakeBuster AI- Your Defense Against Misinformation**
  - Machine learning-powered web application designed to detect and classify news as FAKE or REALs.
- **HireHub – Find Your Perfect Career Match**
  - Users can register or log in to book an appointment by selecting a date, time, and providing basic details. A confirmation email with a meeting link is sent, leading to the interview session.
- **Library Management System – Issue, Add and Return your favourite books**
  - The website offers comprehensive library management features, including the ability to add books to the database, issue and return books, and generate detailed reports on members, fees, payments, and fines.
- **SupraDrive – File Vault**
  - A Secure File Upload & Management System. Built using Node.js, Express, MongoDB, and Supabase, this project provides a seamless and secure file upload and management system for users.
- **TaskMaster – Todo App**
  - Todo App with React and Supabase. A feature-rich to-do list application built with React and Supabase, featuring user authentication, categories, drag-and-drop reordering, and account management.

ACHIEVEMENTS

- 1st Place: Won App Development Competition called App-e-teaser in Our College Tech Fest.

WHY HIRE ME?

- Full-Stack Experience: Full stack developer with strong problem-solving skills, real-world experience, and a track record of building impactful, scalable solutions.
- Leadership & Innovation: Proven leader and innovator, driving impactful solutions through vision, collaboration, and a proactive, forward-thinking mindset.
